C.G.I.T. CONFERENCE HELD AT BLAIRMORE

One hundred and thirty-five girls and leaders of the Canadian Girls in Training, from Bellevue, Hillcrest, Coleman and Blairmore, assembled at the United church, Blairmore, on Saturday last, November the 18th, to attend the C.G.I.T. conference.

The theme of the conference was "Trails," that is, in a girl's life. Miss Hetherington emphasized the importance of the C.G.I.T. fourfold life.

At 6 p.m., the girls gathered in the L.O.O.F. Hall and sat down to tables overbrimming with delicacies. After the banquet, speeches were made by:

Miss Christophera ("Four Posts"), Miss E. Goodwin ("Strangers on the Road").

Miss C. Allan ("Fork in the Road") Miss-Reid ("Beckoning Peak").

Songs and dramas followed. Miss Hetherington closed with a talk to the girls about "Standards in a Girl's Life."

The Resolutions Committee presented the following report:

I. That we should thank the Board of the Blairmore church for the use of their building for conference sessions.

II. That we thank the Ladies' Aid for the banquet which they prepared for us.

III. That we thank the ladies who opened their homes and provided lunch for the delegates.

IV. That we thank Mr. Young and all those speakers who gave such fine inspirations.

V. That we thank those people who provided cars for bringing the girls to and from the conference.

Signed:

D. M. BURROWS, Secretary.
E. M. FISHER, President.

CORRESPONDENCE

To The Editor,
The Blairmore Enterprise,
Blairmore, Alberta.

Dear Sir:

I notice a conflagration took place at a council meeting in your issue of The Blairmore Enterprise about a certain lady by the name of Mrs. Russell, that was sent to the Macleod hospital by the Town of Blairmore under the Alberta Health Act. I notice a certain document appeared, signed by Mr. Frank Wright, secretary of the Town of Blairmore, and myself as mayor, which the council claims to know nothing about. I must state that every man on the council were aware of the document, as I personally interviewed them myself. The majority were in favor of sending this fine old lady to the hospital for treatment and to be taken care of according to the Health Act and the Town's health officer's, Dr. Oliver's instructions to be carried out.

Mrs. Russell's two sons signed an order to the Town of Blairmore for their wages, which stands good while their mother is a patient in the Macleod hospital. This order was produced at the council meeting and read by the secretary and was accepted by the town officials at the meeting.

I am very much surprised at the stand the town council is taking on this matter at this late hour. Surely they must know they must abide by the Health Act.

Thanking you for taking up your valuable time,

I remain, sir,

A. McLEOD,
Ex-Mayor of Blairmore.

E. Fownes, as deputy-warden, is now in charge of Lethbridge jail.

Where all streets lead; where all traffic stops, where everybody is happy: St. Anne's Church Bazaar, Lodge Hall, Blairmore, November the 24th.

"SO THIS IS CANADA" COMING TO BLAIRMORE

Lovers of laughter will have a feast at the Blairmore opera house tomorrow (Friday) night, when witnessing "So This is Canada," the sensational comedy of the year.

This comedy is from the pen of W. S. Atkinson, a Canadian resident, but as he came over from England some years ago and has incorporated into his plot and comedy situations many of the happenings and general experiences through which he passed as a newcomer, one may expect a realistic and interesting play.

"So This is Canada" put before the public a set of characters affording unlimited fun, because of their own idiosyncrasies and those of the people they cleverly and inconspicuously caricatured, and gave many phrases of life that were of a delightful humorous nature. It presents to our view the experience of settlers new to the country and conditions, yet imbued with that indomitable spirit that overcomes all obstacles.

Mr. Atkinson takes for his leading characters an Englishman, an Irishman and a Scotchman—all three of whom have come to Canada to settle after having done "their bit" in the great war.

The company comes intact, just as it played the Walker Theatre, Winnipeg, recently for two weeks and two weeks ago at the Grand, Calgary. Carried for the production is everything necessary and in order to do this a baggage car is used and though the expense is great, Manager Schuberg maintains his reputation of being connected with nothing but the very best.

Seat sale is now on at Capt. W. A. Beebe's. Remember, in order to give parties an opportunity of attending the dance at the Greenhill Grill, the curtain will rise promptly at 7.30.

PYTHIAN SISTERS' SALE OF WORK A HUGE SUCCESS

The sale of work, tea and what drive staged last evening by the members of Greenhill Temple, Pythian Sisters, was one of the greatest successes of the season. During the afternoon the various stalls of fancy work, home cooking, etc., were well patronized and large numbers sat for tea. Practically every item was disposed of. At 8 o'clock some twenty-four tables were occupied at which, when twenty hands were played. The successful prize winners were: Ladies' first, Mrs. Jack Hughes; second, Mrs. J. A. McDonald; consolation, Mrs. George Brown. Gents' first, Mr. J. B. Dean, of Calgary; second, Mr. J. B. Harner; consolation, Mr. T. Vajprava.

Tables were spread for one hundred and ten, and a second setting became necessary to feed the crowd. Following supper, the prizes were awarded and dancing ensued. At 11 o'clock, the draw for the major prizes took place, resulting as follows: The doll, won by Mrs. A. Womersley; the cake by Mrs. F. Wheatley; and the table runner by Mrs. K. G. Oralg.

SUCCESSFUL WHIST DRIVE AT BELLEVUE

A very successful whist drive and dance was staged by the Catholic Women's League at Bellevue on Friday night last. The prize winners at whist were: Ladies' first, Mrs. J. Williams; second, Mrs. J. A. Barbour. Gents' first, Mr. Andrew Charlesworth; second, Mr. George Skelding. The centre piece was won by Mr. Harry Campbell.

Give the cook a holiday. Eat at St. Anne's Bazaar, November 24th.

Though November 24th be cold and dreary, the Lodge Hall will be warm and cheery. St. Anne's Church Bazaar.

AT THE ORPHEUM

Three big film attractions are booked at the Orpheum Theatre for Saturday, Monday, Tuesday and Wednesday next.

The Saturday feature will be Harold Bell Wright's "A Son of His Father," a story of Arizona, where pioneer blood and traditions still persist. Matinee and evening.

On Monday and Tuesday one of the biggest pictures of the present day, Milton Sills in "Men of Steel," with the popular character, Doris Kenyon. This is a First National picture and the giant of all screen dramas.

On Wednesday, Adolph Zukor and Jesse L. Lasky will present "The Wanderer," a wonder picture from the stage spectacle by Maurice Samuels.

A special four-piece orchestra in attendance.

Fancy work, real fancy work, fancy work exquisite—It's one chance only—St. Anne's Bazaar.

BELLEVUE ODDFELLOWS TO ENTERTAIN

At the regular meeting of Bellevue Lodge No. 118, L.O.O.F., on the night of Monday, November the 29th, members of the Order will be present from Pincher Creek, Cowley, Coleman and Blairmore, when a team from Pincher Creek will exemplify the Initiatory Degree, to be followed by a social and concert. All local members are requested to attend.

ALBERTA'S NEW GOVERNOR

At the provincial amateur hockey meeting, held recently at Lacombe, W. H. Chappell, of Blairmore, was elected amateur governor on the Alberta branch, representing the hockey association.

The Fernie Rod and Gun Club will shortly issue an annual guide book. This publication contains most useful information for hunters and anglers.

HEALTH

The Greatest Asset You and Your Family Possess. Why Neglect It? ILL HEALTH — Your Greatest Liability — WHY CULTIVATE IT? Wampole's Tasteless Preparation of Cod Liver Oil will safeguard you and your children against the danger signals of ill-health. The greatest medical authorities in the world advocate the use of PURE COD LIVER OIL for the treatment of wasting diseases, particularly where there is a tendency to chest weakness or lung trouble. It is not only pleasant to the taste, but easily digested and rapidly assimilated. It restores the worn out cells, creates warmth and renewed energy, and increases weight more rapidly than any other remedy. FOR THAT STUBBORN COUGH IT HAS NO EQUAL.

For convalescents, weak or growing children, a marked difference can be noticed after the use of one bottle.

WORLD HAPPENINGS BRIEFLY TOLD

A socialist daily newspaper, with capital of \$300,000 francs (\$30,000) will be published in Paris at the beginning of 1927.

The Canadian Pacific Railway enriched the treasury of the city of Quebec by the sum of \$219,052.25, being its contribution in municipal taxes for the year 1926-27.

Parliament will meet early in December. This was the intimation made by Hon. J. A. Robb, acting prime minister, at a meeting of the cabinet council.

Special despatches from Durango say the military authorities of that state have ordered the arrest of all Roman Catholic priests in Durango City, Mexico, on suspicion they are inciting the people to rebellion.

Ninety per cent of registered shipping in the Bahamas has been lost in three successive hurricanes, almost July, official reports indicate. Masses in past years killed at this season with a large army of craft, is almost barren.

Attempts against the life of Mussolini or any member of the royal family will be punishable by death hereafter. The Chamber of Deputies approved this law, to which Mussolini himself consented after the insistent demands of the Fascist party.

The first of a fleet of four speedy torpedo boats has been launched by the German Navy, conforming to a plan and armament to the restrictions of the Versailles treaty. The boats will be perfected to such an extent that they can be regarded as a formidable defensive force.

The British coal tie-up and the subsequent slowing down of other industries have resulted in losses in production to Great Britain of between £250,000,000 and £300,000,000, Sir Philip Cunliffe-Later, president of the board of trade, estimated in the House of Commons.

Mrs. W. F. Alloway, a devoted charitable worker and wife of Manitoba's pioneer banker, died at her home in Winnipeg recently. Mrs. Alloway, the daughter of James MacLaren, pioneer lumberman of the Ottawa Valley, a resident of Buckingham, Que., and founder of the Bank of Ottawa, had been a resident of Winnipeg for 48 years.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, abrasion, or sprain be sustained, nothing could be better as a dressing or lotion.

Teaches Snake to Drill
Miss Nora Wilkins, of Powell Co., Kentucky, is a snake catcher by vocation, and she makes a good living out of the job. She is only twenty-three years old, and she has caught and sold some rare specimens to circuses, zoological gardens and private collectors. She has, at her home, six snakes which she has taught to crawl in drill formation.

French Plan Air Service
Appropriation of 600,000,000 francs to establish a trans-Atlantic aviation line between Dakar, in the French colony of Senegal, and Buenos Aires, the Argentine capital, was announced by the French finance ministry.

Plan For Celebration

King and Queen to be Invited to Attend
Sixtieth Anniversary of
Confederation

Plans for the 60th anniversary of Confederation are maturing. The Association of Canadian Clubs, through its executive committee, has put forward a series of proposals:

- 1.—That Their Majesties, the King and Queen, be invited to visit Canada during Jubilee week of July 1.
- 2.—That the governments of Great Britain, the United States, the Republic of France, the Indian Empire, the Irish Free State, and the British Dominions be invited to send representatives.
- 3.—That there should be an issue of commemorative postage stamps.
- 4.—That motion pictures of the events leading up to Confederation be made by the government motion picture bureau.

That there be a national organization to arrange the celebration, the chairman to be appointed by or from the federal cabinet.

Incidental to the general suggestions, it is proposed that a simultaneous salute be fired throughout Canada by electricity from Ottawa at noon on July 1, 1927, and that 10,000 beacon fires be lit from coast to coast in the evening of Dominion Day.

Individual and Smart

Can you imagine anything more becoming and more gracious than this stunning frock of more? It will answer so many occasions and serve many purposes with ease that the youthful woman will at once claim it for her own. The skirt has clusters of pleats in the front and back and is joined to a straight bodice having a bodice collar and long wide sleeves. The bodice open at the neck, and a peplum flared at the sides is sewn to the dress at the low waistline. No. 1395 is for the miss and small woman, and is in sizes 16, 18 and 20 years. Size 18 years (36 inch) requires 3 1/2 yards 39 inch wide; 3 1/2 yard plain contrasting. Price 20 cents.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price 10 cents the copy.

SUNDAY SCHOOL LESSON

NOVEMBER 21

JOSHUA RENEWING THE COVENANT

Golden Text: Choose you this day whom ye will serve. . . . but as for me and my house, we will serve Jehovah.—Joshua 24:15.

Lesson: Joshua 24:14-25.

Devotional Reading: Psalm 107:1-3.

Explanations and Comments

1. Joshua Reminds the People of God's Help Throughout Their History, verses 1-13. Joshua assembled the people at Shechem, sending a special summons to everyone in authority, the elders, the heads of Israel, the judges, and the officers. He began his farewell admonitions by seeking to stir their hearts with a recital of God's care and help from the time of Abraham to that present moment when they were in possession of land on which they had not labored, of cities which they had not built, and vineyards and oliveyards which they had not planted. He told all this in the form of a speech from Jehovah himself, thus stressing the fact that he and they were simply instruments of the divine will. "I give . . . I sent . . . I plagued . . . I brought . . . I gave . . . I destroyed . . . I delivered . . . I sent"; these recurring pronouns have been likened to the blows of a sledge-hammer, the force of the thought into the people's hearts. It was history seen by the eye of faith. "Oh, that men would praise Jehovah for his loving kindness. And for his wonderful works to the children of men!"—(Psalm).

Became So Weak, Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes:—"Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse."

I wrote my mother about my condition, and she sent me three boxes of

**MILBURN'S

A Triple Bond
Among the English speaking people the strongest bond uniting them is said to be that of the three L's—Literature, Law, Language. Some students put language first and literature last, but others maintain that the literature is what has made the language foremost in the triple bond.

What's the use of washing my hands before I go to school, mother? said the small boy. "I'm not one of those who are always raising them."

The metal pullover has a lot of bright prospects.

Economic Importance Of The Farm

By C. W. Peterson

It is a fact that Canada's agriculture looms up as the largest single factor in her economic life, with the farmers as the largest group in domestic consumers, consequently exerting a commanding influence upon the general business conditions of the country. One-third of all revenue freight carried by our railways originated on the farm and another third was doubtless represented in carrying commodities of all kinds back to the farm, and the transportation to and from agricultural raw material. The Canadian farm not alone feeds the nation, but exports on such a scale that credits are available to balance our international obligations and create a favorable trade balance.

Besides the millions of farm workers directly engaged in producing, there are other millions earning their living by performing work connected with supplying the implements, tools, shoes, clothing etc. for the farmers, with the manufacture of raw material originating on the farm and the distribution and transportation of such commodities.

Who is bold enough to attempt correctly to estimate the economic importance of agriculture in a country like Canada? It is perhaps well within the mark to assert that at least 80 per cent of Canada's rural population, in every walk of life, depends absolutely on the farm, directly or indirectly. These are imposing figures and, should lead thinking men to speculate on the possible performance of Canadian agriculture in terms of national development, were the happy noon when more than a mere fringe of our agricultural area was on a producing basis. If, for instance, we were producing on one-half, or even one-third of our arable lands instead of only one-sixth, granting a fair occupational balance, our present economic problems would vanish over night. The time is ripe for bringing such a situation about. We have the undeveloped natural resources, the markets are there, and we only need the man power and the capital to complete the circle. And that is purely a matter of intelligent business organization.

Manitoba Tourist Trade

Winnipeg Tourist and Convention Bureau Has an Active Season

The Winnipeg Tourist and Convention Bureau registered a number equal to 58 per cent of all the motor cars that crossed the whole of the Manitoba border from the United States, and remained for more than twenty-four hours, up to October 31, 1926. This includes Emerson, Greta, Killarney, Cartwright, Crystal City, Meads, Snowfalls, Bancroft, Pelly, Waskada, Hackett and all parts of entry. 105,710 people came across the border of Manitoba from the United States and 75,712 of them stayed less than a day, while 30,688 came in for a period ranging from two up to thirty days.

A day's stay would mean over \$2,000,000.00 left in our country based on an expenditure of \$17.50 per capita per day. A two day's stay would mean an expenditure of more than \$4,000,000.00, while the usual average of 2 1/2 days, which is accepted by all members of the L.A.C.B. as being correct, would mean a gross expenditure of over \$7,000,000.00 in Manitoba during the past season.

For the year 1926 seventy-four conventions were held in Winnipeg with an attendance of 23,600. The feature of the 1927 season, in which sixty conventions have already been booked, will be the side-trip of the Minnesota State Elks Association, who will visit Winnipeg for two days in the third week in June, 1927. Indications point to 1928 being a "Banner" year for conventions. The Norse Association of Canada, seven thousand strong and the Norse Slaves of America, one thousand strong, already have selected Winnipeg as well as numerous others, ranging in attendance from 200 to 3,000. W.K.K. Convention for 1929, attendance 25,000.

CHAPTER XIX.—Continued

"I know that Joanna will have nothing to say about the likes of you paying his rooms a visit whenever you want."

"But that is what you must help me about," Joanna answered. "I don't want him to know that I've been here. You must make a little plot with me not to tell him. If you say that you won't, I know I may trust you."

"As to this landlady was not at all sure. Her waters, she said, were narrowed a little and appraised the face of the girl who, plainly, wasn't 'John's girl' any more.

"Well, now," she temporized, "as to this, Miss, I'll have to think a bit. A man's house in his castle like I—used to say in the old days when I was a ingenue for Raymond Hitchcock, I must say, had his pick of ingenues, and knew how to do the picking. Or course that was not in comic opera, and it was a long time before I'd put over if I wasn't there to feed him right, but still that's the way it is, you know."

Joanna had listened patiently. "But it will be all right," she protested. "John and I haven't any secrets—yes, I'm still 'John's girl,' and always will be, no matter what happens, although he has another notion just now. This must be a secret from him, your secret and mine, and it's just something I want that he mustn't know about for a little while. She gave the landlady the full benefit of a smile and a pleading from deep brown eyes that were irresistible. Gradually the woman gave in, shrugged her angular shoulders and agreed that "it's all right, it is, I guess it'll be all right. I don't think you'll find any love letters from other girls, Mr. John's not that way with girls."

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound about for a little while, and I can't tell you how it has helped me. I had a female trouble so badly, I could hardly walk and I was all run down and could hardly get around to do my house work. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am right again and doing my own work. I have six grown-up to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it more of it was used women would be better off. I can't tell you without it if it cost much more."

Mrs. Nellie Hoon, 28 St. Matthews Avenue, Hamilton, Ontario.

She felt broken down, nervous and weak sometimes. Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition."

"And you think I have made up my mind that you are not to be harmed," she challenged him. "Perhaps I have. At any rate, I'm not going to be afraid of you, but that doesn't mean that I don't know that I ought to be. But just now I am not thinking of you, but of Mr. Eggleston. I want him to like me, and I wonder why he has asked me to see him." She was not watching him but she sensed a quiet glance that took her in from head to foot. "I rather imagine," he said, "that most anyone you want to admire you, will it may be that even your banker will lose his heart to you. Have you decided, too, upon that?"

"No," she said, very seriously as if she were considering the matter deeply. "I would never want an old man to lose his heart to me. The kind who do are always silly and wicked. And Mr. Eggleston isn't that sort. I'm dreadfully frightened of him, of the thing he knows, who gives me the money and why, but when I sit before him I feel as if there was something between us, something that isn't money. I don't know how to describe it, but it's something that makes me want to be liked by him and trusted. He doesn't seem like a banker at all. I think all the things people have always said about him, his being hard and cruel and merciless, are unjust."

"Yet I have known him to send a man to outside by refusing him a job for a few paltry dollars to save him from bankruptcy. And I've seen him torture a woman who came to see him to ask a concession from the bank that would have saved her from the contempt of her husband. I've known great institutions to fall overnight because he wouldn't lift his hand to save them."

"Yes," Joanna agreed. "He would do that. Just as Mr. Good Morning, the buyer in the store, about a pretty girl to prison, for stealing a pair of baby's silk socks. We girls at the counter took a collection to pay her fine, when we heard there was really a baby the socks were intended for, but when we told Mr. Good Morning about it he snapped our heads off and threatened to fire everyone of us if we dared say a thing. But just the same her fine was paid and she got off, and I almost gave him a date when I found out that he paid out of his own pocket. He wouldn't let us pay, and charged himself with three pairs of baby's socks and a baby's silk dress besides. Some men are that way you know."

Brandon laughed, a short, insolent laugh that made Joanna hate him anew. "I would advise," he said, "that you never let your banker catch you in a hole that you needed getting out of. You would do better to depend upon—shall I say the obvious thing—me."

She turned and looked at him, deliberately. "If there was a hole for me to stumble into," she said, "you'd be the very one to push me in. And you would do the pushing with a hint." Still she smiled brightly at him. "Then, I'm going to be very nice to you, you know."

Much of her reliance went out of her, however, when she stood in the parlour of the mansion. It was a very little thing, and she realized, a very ridiculous thing, altogether in the great quiet room that seemed to resent the smartness and the youth of her. She wanted to talk in what was called when Brandon came and stood, near her when her eyes in a furtive survey of the far corners of the room, fell upon the face of the girl in the gold frame over the huge fireplace, a strange sensation stole along her pulses. She wished she could hide her swaggy stick. Somehow she wished that she had left it in the car, outside.

(To Be Continued)

Earthquakes Cause Alarm

Persistent earthquakes, unprecedented in scientific history, have caused such alarm that the Near East Relief officials have decided to consult geologists regarding the advisability of evacuating the entire Ararat Valley, where they have orphanages.

Growing of bulbs, especially narcissus, has become a profitable industry on the abandoned rice fields of South Carolina.

Men who try to keep up appearances often find it necessary to keep up appearances later on.

Doan's Kidney Pills

ALL KIDNEY DISEASES

Doan's Kidney Pills are the only pills that will cure all kidney diseases. They are the only pills that will cure all kidney diseases. They are the only pills that will cure all kidney diseases.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medication to Break Colds

Children's ailments are easily upset by too much "dosing." Vicks VapoRub being applied externally, especially to the throat, breaks colds, soothes the stomach, and at the first sign of croup, sore throat, or any other cold trouble, apply Vicks VapoRub. There is nothing to swallow—just rub it on.

VICKS VAPORUB

Over 21 Million Jars Used Yearly

Calamities Bring Fortune

Accidents Suffered by Engineer Gave Him the Best of Both Worlds. Happiness and success can be very close to misfortune. A trip just around the corner may reveal new ideas. Twelve years ago Joseph A. Saunders, an engineer on the Grand Trunk railroad, was blinded in one eye in a crash after his train had run into an open switch. Nor was that the first cruel prank that fate played on him. As a boy, 38 years ago in Vancouver, B.C., he lost both parents in an automobile accident.

The misfortunes suffered by Saunders started him to think up a way to prevent train disasters. He recently produced an electric safety device. A small lever resting against a wheel of the locomotive detects by low voltage wires any broken rail, without open switch or landslide ahead.

Saunders is to receive \$1,000 money as president of a company manufacturing the invention. He accepted \$200,000 for partial right to the use.

Out of the very ashes of his calamity burst the flame of fortune. To fate's formula he added long hours of hard work.

Earning Living in Factory

Woman 105 Can Set Pace for Younger Workers

Grandma Emma McMahon, of Kansas, though born in 1821, nevertheless shares the views of modern feminists that all women should be self-supporting. Although she is 105 Mrs. McMahon is earning her living as a garment finisher.

She claims to be the oldest self-supporting woman in the world. She long has been famous in garment finishing circles here for her speed and the needle.

Back in 1921, when she was only 105 she could find six pairs of trousers along with the best of the workers at the garment factory. Now, at the Good Will Industries, a Methodist institution which rehabilitates fingers set a pace that is not easy for some of the younger workers to follow.

Although a modernist, Grandma McMahon hasn't been active in politics since 1849, when she worked for Zachary Taylor for President.

Mrs. McMahon's only recipe for longevity is to pick long-lived ancestors.

Large Gold Shipment Arrives in Canada

Destination of Million Dollars in Sovereigns Not Known

Gold specie, in sovereigns, amounting to almost a million dollars, has arrived in Montreal aboard the steamship Metagama.

By a peculiar coincidence this shipment reached Montreal one year ago to a day, after the arrival of a similar type of cargo aboard the steamship Montcalm.

On this voyage the Metagama brought out forty boxes of gold coins, the amount of which is not exactly known. Judging from the contents of those boxes brought here last year on the Metagama, which contained \$5,000,000, it is assumed that the forty boxes on the Metagama contained \$200,000.

Beyond the information that the specie was consigned to the Canadian Pacific Express Company, no further enlightenment could be thrown on its final destination.

One Way to Raise Money in the province of Quebec, in Mexico, those who drink or smoke in public, must pay a tax for the privilege, the money thus raised being devoted to fighting locusts, which are a pest in that district. If a policeman sees a man smoking or showing the effects of liquor, he is privileged to ask him to show his tax receipt.

Brick Plant For Saskatoon Saskatoon Clay Products Limited, has been incorporated with an authorized capital stock of \$50,000, to operate a brick-making plant in this city.

The Child's Health

Physical Examination in Necessary For the Child Entering School

A sound mind needs a sound body. For mental alertness and capacity the body must be kept in health. The child going to school should have a body with the minor defects that may easily become major corrected, physically sturdy to resist the attacks of disease. A physical examination is as necessary for the child entering school as the certificate of mental capacity from his elementary school principal. The responsibility for the child's physical fitness is not wholly the parents. The family physician has a duty. The health department suggests that "no one can resist his family physician inquiring if the child about to enter school is prepared to enter and to obtain all the benefits possible; if he is in fit condition and able to carry on the school work to advantage and without danger to his health."—E.C.

Has Become Lost Art

Swiss Shepherd's Look Puzzled When Asked About Yodling

Yodling is a lost art in Switzerland. Shepherds and farm hands look askance at American tourists who take time to yodel. A party of tourists visiting Switzerland repeatedly asked about the yodel or, two. None responded. They all looked puzzled. Suddenly, just around a bend in the main road, came the thrilling notes of a perfect yodel and the visitors hurried to get a glimpse of the performer. He proved to be a hasty American tourist.

Little Helps For This Week

Every purpose of the Lord shall be performed.—Jer. li, 29.

At best our least endeavor Must faint and fall forever. Without God's guiding finger to point the how or where.

Then let us choose His choosing, All selfish choice refusing. Nor quail which is better to serve Him here or there.

—Margaret J. Preston

To wish to serve Him in one place rather than in another, by such a way, and not by the opposite one, is to wish to serve Him in our own way and not in His. But to be equally ready for all things, to accept everything and reject nothing, to leave ourselves at His will, in the hands of Providence, this is serving Him by renouncing self, this is treating Him truly as God, and ourselves as creatures made only by Him.

—Fenelon.

Better Than Auditorium

Speeches Can Be Heard Clearer in Open Air

The open air is better than any auditorium ever devised, as far as clearness of hearing is concerned, according to a recent report of University of California physiologists. The walls of a room may increase the general loudness of speech sounds, but this is more than counteracted by the confusing reverberations the walls introduce. A room that is carefully padded with half-felt, or that is built with a porous, spongy wallpaper, will approach, though not equal, open air conditions.

Is Unwilling Leader

Prince of Wales Dislikes Being Starter of Fashions

The Prince of Wales can start a fashion in an article of men's wear and often does but he does it unwillingly and is certainly not a willing arbiter of fashion.

Rather he is most anxious to avoid publicity or advertisement of any sort and often goes out of his way to escape attention. He dresses well and tastefully, but not any more so than the average man about town. His high rank and popularity, however, are seduced by haberdashers and tailors to some quiet advertising on their own. When it becomes known through whisperings that the Prince of Wales favors this of that article of attire, it becomes the fashion immediately although others may have worn them before.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

Telephone Number A Secret

Mr. James Barrie Has Been Listed Under Butler's Name

Like many shy persons, Sir James Barrie dreads being called on the telephone. But despite his dislike, the author feels that he should have a telephone in his home.

The name of Sir James, however, does not appear in the telephone directory. Nor is it registered in the secret files of the telephone department.

Instead, the phone is listed under the name of Sir James' butler, and by this system the writer is accessible by wire only to those intimate friends who know his well enough to also be aware of the name of his butler.

Canadian Courtesy

An Indiana publisher motoring through Ontario the other day said: "I have never met with such uniform courtesy in all my life as I have experienced since I crossed the St. Clair River into Canada." This is high praise and we should ever strive to continue to deserve it.—Border Cities Star.

Minard's Liniment for Colds.

Zam-Buk

SAVES POISONED LIMBS!

It was just a bad ankle that might happen anyone. But it serves to show how quickly blood poisoning develops unless blood-poisoning is the prevention of antiseptic Zam-Buk.

Mrs. A. Harcourt, Place de Armes, Kingston, Ont., writes: "During blood-poisoning my left ankle was injured by a sharp stone. Sticking dirt got into the wound and its poisoned condition alarmed me. My ankle took a turn for the better. I used Zam-Buk. It healed perfectly. The Zam-Buk also for eczema, rashes, skin boils, abscesses, cuts, scalds, etc."

Planning Railroad

To Elijah's Tomb

Jewish Bodies in Palestine Will Share Expense

A grandiose railway to the tomb of the Prophet Elijah on Mount Carmel, Haifa, is one of the plans which will be carried out shortly by Pinhas Elobor, promoter of the Palestine Electrical Corporation. The Haifa municipal council with the assistance of the Government is asked to construct a \$50,000 railway up Mount Carmel. The municipality will share in the cost of the road to the extent of \$10,000; the Arabs \$7,500 and the Zionists \$15,000. Two interesting Jewish bodies in Palestine will put up jointly \$15,000. The Palestine Electric Corporation is a \$5,000,000 concern. The Marquis of Reading is its chairman.

GUARD THE CHILDREN FROM AUTUMN COLDS

FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—no day is warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Better Than Auditorium

Speeches Can Be Heard Clearer in Open Air

The open air is better than any auditorium ever devised, as far as clearness of hearing is concerned, according to a recent report of University of California physiologists. The walls of a room may increase the general loudness of speech sounds, but this is more than counteracted by the confusing reverberations the walls introduce. A room that is carefully padded with half-felt, or that is built with a porous, spongy wallpaper, will approach, though not equal, open air conditions.

To safeguard the child from damage that worms cause, use Miller's Worm Powders. These powders will clear the system entirely of worms, will regulate the bowels, and will encourage healthful operation of the digestive process. It can be relied on for its effectiveness.

Allowed To Excavate

The Angora Government has given the British Museum of London permission to excavate the Hippodrome, the heart of the ancient city of the Emperor Constantine.

General Gerard Dead

General Augustin Gerard, who commanded the first army in front of Paris during the Great War, is dead at his home here, aged 59.

CUTICURA HEALS ITCHY ECZEMA

Staged With Rash, Then Broke Out in Blisters, Then Sleep.

"My baby suffered with eczema for about a month. It started first with a rash, and then broke out in blisters. It itched and burned a great deal, and she lost her sleep. I began using Cuticura Soap and Cuticura Ointment. The itching and burning sensation stopped. We continued to use Cuticura in two weeks she was completely healed." (Signed) Mrs. Peter MacDonald, R. 1, E. 1, near New York, N. Y., Sept. 29, 1924.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands, and a healthy scalp with good hair. Cuticura Soap and Ointment are sold by all druggists and dealers. Sample Book Free by Mail. Address: Cuticura, Dept. 5, P. O. Box 100, New York, N. Y.

CAUSE OF COLLAPSE OF IMPORTANT INDUSTRIAL DEPT.

Mr. W. R. Wilson, president of the Crows' Nest Pass Coal Company, in addressing the Fernie Post of the Canadian Legion, B.E.S.L., at a banquet at Fernie celebrating Armistice Day on November the 11th, directed attention to the necessity for real wisdom on the part of statesmen in dealing with the affairs of the country today.

The aftermath of the war had to be adjusted, he said, and the disturbed confidence, not only among nations, but among the people of each country, must be restored before suitable progress would be accomplished.

Mr. Wilson was somewhat critical in his analysis of the present allocation of Canadian industrial centres and the claims of the respective localities which abound with raw products, for their commercial development. He singled out Fernie district as a locality having ample diversified resources to make it fundamentally desirable for an iron and steel industry there. For many years, he said, he had been interested in these investigations and only a few short months ago had developed negotiations with representatives of British financial interests, that they were on the verge of being satisfactorily consummated. The failure had been due solely to the general labor troubles

The Reston Mercury, in a recent issue, reviews many changes that have taken place in the town merchandising methods in recent years; and offers some useful hints, as follows:

"Small town merchandising cannot be carried on today as it was fifteen or twenty years ago. The trade does not go to a store nowadays because the family for a generation back happened to be patrons of that store. It goes to the merchants who adopt modern methods and who persistently advertise—and keep faith with their advertisements. For the live, up-to-date town, hard roads mean an opportunity to increase business. For the town that tries to carry on in the old way—well, you may guess for yourself what is likely to happen to it. While it is necessary to keep strictly in line with modern methods of doing business, the old timers had one system that was a sound business policy. You might call it the human touch. They were on intimate terms with their customers far and near. A town store should be like the newspaper editor in that respect. The community editor must know his patrons, the remote farmers as well as the townspeople, and when a man from the farm comes to town he must be greeted with the cordiality of an old-time friend. The small town merchant must cultivate the same cordial relationship with the people of the farm. It not only helps his business, but it creates good-will. It means friendly contact, confidence between man and man."

affecting Britain. Mr. Wilson said his principals indefinitely suspended their activities in any contemplated industrial development in this district, and until these disturbing conditions within the empire were rectified by proper adjustment they would not further consider advancing capital for any promotion there.

(Blairmore Enterprise, 1911)

November 18.—Mrs. Philip Hart and daughter Katie, of Bellevue, were visitors to Pincher Creek during the week.

William Evans had added a new safe and a considerable amount of new furniture to the equipment of the Southern Hotel.

Mrs. James Naylor, of Frank, is spending a couple of months with her parents at Macleod.

Jean Schuur, was at Hillcrest last week, relieving G. E. Cruickshank at Lang's store.

Mrs. Ruis, the genial cook for the happy occupants of the Calabash Club at Frank, left on Wednesday for a well-earned week's vacation with friends at Raymond.

Samuel Lesser, who had been managing Burnett & Lang's store at Bellevue during the past few months, has returned to his old position at Lang's store at Frank.

F. M. Pinkney, of Blairmore, occupied the pulpit of Knox Methodist church on Sunday evening last; some unforeseen circumstance having prevented the pastor, Rev. W. T. Young, from arriving here from the northern part of the province.

As to the new aspirants for the position of postmaster at Frank, we believe that should A. V. Laag resign his position, Isaac Wilson should succeed him, and we know that in this we voice the sentiments of many of all shades of politics.

A man simply cannot understand why a woman will pay a dollar for a blouse of plain material and a guinea for one with holes in it.

While workmen were engaged in thawing out some of the crushers at the plant of the Rocky Mountain Cement Co. this morning, the wooden framework caught fire, but the fire was extinguished before much damage was done.

Dr. A. H. Baker arrived in town last week end and is looking after Dr. Mackay's interests here.

Rev. A. S. Tod, B.A., B.D., left on Monday for Edmonton, where he will attend the Sunday schools convention and other important assemblies.

Editor Phil, of the Dutch Canadian, Calgary, came to town on Tuesday and returned same evening, accompanied by Mrs. Phil, who had been visiting friends here.

"Forty-Five Minutes from Broadway" appeared at the opera house on Thursday evening and elicited lots of laughter and was heartily applauded.

The first meeting of the new town council of Blairmore was held in Budd's hall on Monday evening last. Mayor Lyon and Councillors McLeod, Chestnut, Sinclair, Dutil, Smith and Farmer were present. The first business was that of appointing a secretary-treasurer to fill the vacancy caused through the resignation of Capt. W. A. Beebe. W. L. Shera was elected to fill the position to the end of 1911, at a salary of \$50 per month. It was decided at this meeting to raise \$40,000 for waterworks and \$5000 for fire hall and equipment through the sale of debentures. The matter of a curfew by-law was discussed and the solicitor was instructed to make provision for same in the new by-laws. L. H. Putnam acted as solicitor.

Justice Stuart has given his decision in favor of the province in the Alberta and Great Waterways Railway case.

The R.N.W.M. Police arrested two Poles named Stifan Fritz, alias Albert, and John Jaesbe, of Michel, B.C., on a charge of having committed murder at Frank in the spring of 1908. Many of our readers will recall to mind the shooting tragedy which occurred near the Imperial hotel in the early hours of Sunday, the 12th of April, 1908, when Constable Wil-

The annual meeting of shareholders and directors of the Blairmore Arena Limited was held at the Greenhill hotel parlor on Friday night last, when the fifth annual report and financial statement for the year ending September 30th, 1926, was presented. The report was very favorable and showed that in spite of the many obstacles in the way of the year's operations, financially the arena was in good standing.

The minutes of last annual meeting were read and approved, and the resignation of Dr. J. Olivier, presented to the secretary in January last, was submitted for consideration at this time. It was the unanimous opinion of those present that Dr. Olivier should reconsider, and should remain as president of the company. Sufficient pressure was brought to bear upon the doctor to remain in office and Messrs. J. E. Gill's, Dr. Olivier and C. J. Tompkins were elected members of the Board of Directors for a period of three years.

Mr. P. Montalbert was re-appointed auditor for the year 1926-27. The matter of engaging an ice maker for the season was left with the Board of Directors, with preference to be given to the employment of Mr. Ringand.

Votes of thanks were accorded the following: Mr. Robert Gray for efficient management last season and duties rendered gratuitously as secretary during the year; the Knapman Plumbing Company, the West Canadian Collieries, Limited, E. J. Pozzi and The Blairmore Enterprise, for liberal rebates on accounts, and the local Lodge of Elks for the splendid donation of \$500, without which the arena affairs could not have been pulled through so creditably.

Those present included Messrs. L. L. Morgan, R. Gray, Dr. J. Olivier, A. Moreney, M. G. Rhynas, C. J. Tompkins, W. A. Beebe, H. H. Griesbach, W. H. Chappell, J. E. Gillis, S. Knapman, W. J. Bartlett, J. McPhail, J. R. Gresham and A. M. Grainger.

THE PARTRIDGE QUESTION

The discussion regarding the welfare of the Hungarian partridge as contained in our issue of last week, seems to have created the impression generally in the province that the ultimate extinction of this bird is on the way because of its lack of protection from crows, magpies, hawks, and owls and the overstepping of the game laws as to shooting. We hasten to correct this impression as noted in this locality, and presumably in all others, for from personal observations the facts justify the firm conviction that the birds are as plentiful, if not more plentiful today than ever before; are not being depleted from either shooting, the ravages of the carnivorous air forces or from the ploughing up of the land. They are today heavier and stronger than previously as witnessed by the comparison of weights of five years ago, when the average weight of this bird was thirteen ounces, with their weight of today, when the average weight was found to be fourteen ounces. The argument of in-breeding has also been met with contradiction based on the history of the bird's life in this locality, when the first limited number of pairs were planted here in 1909 or '10, were protected for a limited number of years and became wonderfully numerous, the evident result of in-breeding. However, it is not the intention of this article to particularly discuss the relative merits of all the arguments advanced, but to correct the general impression as broadcasted by the press that this game bird is being depleted in quantities in this locality. The contrary is found to be true.—High River Times.

mett, of the R.N.W.M.P., was shot and killed by some person or persons who escaped and who have not yet been given their just desserts—in this world, at least. The prisoners were taken to Macleod, where they await trial, charged with this murder.

The second annual banquet of the Bellevue Fish and Game Protective Association was held at the Bellevue Inn last night.

Tables were spread for upwards of one hundred and were bountifully laden with good things, to which ample justice was done.

A number of toasts were proposed and ably responded to, and a splendid programme of speeches, recitations, songs and instrumental selections was rendered. The chair was occupied by the president, Mr. John Kerr.

Prizes were awarded for the following: Heaviest basket of speckled trout for one day's catch, heaviest basket of grayling for one day's catch, heaviest basket of mixed fish, heaviest speckled trout, grayling and bull trout of the season.

The prize for the heaviest bull trout was awarded to Mr. Vaughn, of Blairmore. The list of other prize winners will be published in our next issue.

Mr. Glyn Thomas, son of Mr. and Mrs. W. Thomas, of Blairmore, is acting as assistant musical instructor to Madame Ellis-Brown, musical director at Mount Royal College, Calgary.

A report sent out by the provincial publicity commissioner, states: "Some good results have been obtained from the development of Red Bobs," of course, he refers to a new class of wheat.

A memorial service was held in the Catholic church, Bellevue, at 7:30 on the evening of Armistice Day.

Two nice wreaths of the "Flowers of Remembrance," sent by the local B.E.S.L., decorated the altar.

The pastor, Rev. Father Donovan, in his address, stressed upon the following points:

"That we assemble to celebrate a great day of national deliverance and to pay honor to the memory of our fallen soldiers."

He felt that such a service should be held on Armistice Day—that public opinion seemed to support that view.

He said that the beautiful offices of religion should form a part of that celebration, for such has been the tradition of God-fearing people of all time.

Benediction was then given to bring the service to a close.

E. D. Batrum, auditor, is in town from Calgary, making the audit for the months of July, August and September.

Short and tall; stout and small; gifts for all in the spacious Lodge Hall, at St. Anne's Church Bazaar, Wednesday next.

Some guy has discovered, or decided, that the highest mountain in the moon is at least 35,000 feet in height—6000 feet higher than Mount Everest.

Fred Martinovich, known as the slippery Pole, who twice escaped the custody of the Alberta provincial police, was captured near Davenport, Washington, on a charge of burglary. Martinovich is being brought back to Alberta to serve out his two-year sentence, and in addition will stand trial on two charges of jail breaking.

MOTHER OF DR. MCINTOSH DIES AT NEW GLASGOW, N.S.

The death of Mrs. James W. McIntosh, Marsh Street, occurred early Friday afternoon, and comes as a relief to this sorely stricken wife and mother who for the past eight months had been bedfast depending upon the loving care of her husband and faithful daughter Mrs. Capt. Sproson.

Mrs. McIntosh was born in Scotland and came to Cape Breton with her parents when quite a young girl. After her marriage residence with her husband was made at Stellarton, Thorburn, McEllan's Brook and again at Thorburn, where Mr. McIntosh was mine manager. Some 22 years ago they moved to their present home where many happy days were passed and where many endearing friendships were made.

She was a devoted mother and to her family of eight sons and two daughters she lavished every care and attention. It was a blow to her mother heart when her son Will was called away through accident whilst residing at Thorburn, but it was the blow which befell her during the great war, when word came that three of her sons had made the supreme sacrifice, which ultimately resulted in a stroke of paralysis, seven years ago last June, from which she never recovered.

With all that she missed of activity the deceased was the personification of patience, never murmuring but appreciating the acts of kindness and sympathy shown her. Peaceful in her untried years her end was likewise peaceful, for she simply went to sleep to awaken in the fuller life beyond. She is survived by her husband, James W. McIntosh, two daughters, Mrs. Sproson at home and Mrs. William Hall at Coleman, Alberta, and four sons, Alex. and Murray in Cambridge, Mass., Stewart at Cranbrook and Charles, dentist, at Pincher Creek, Alberta. Alfred, Herbert and Heywood, the three sons who have their lives in the war, lie buried in Flander's field—New Glasgow Free Lance.

THE CHARGE AGAINST AIMEE S. McPHERSON

Following is the decision of Judge Blake in the conspiracy charge laid against Aimee Semple McPherson before the court at Los Angeles:

That Mrs. McPherson, Mrs. Kennedy and Mrs. Lorraine Wiseman-Sieff must stand trial in Superior Court upon the charges lodged against them by District Attorney Asa Keyes. Those charges are:

That the defendants conspired to commit a conspiracy tending to obstruct the means of justice, that they conspired to present false evidence to the Los Angeles County jury supporting the claim that the evangelist had been kidnapped.

Not only in the mind of the Municipal Court are they guilty of these two counts. Testimony has revealed another charge not included in the complaint compiled by the District Attorney and which the court appended to the original complaint.

This additional charge is: That Mrs. McPherson, her mother and the other defendants are guilty of a conspiracy to suborn perjury.

O. J. Cooney, who has been undergoing medical treatment at the Belcher hospital, Calgary, is progressing favorably.—Macled News.

Judgment in the stated case of His Majesty the King versus the 1500 Club of Calgary has been reserved by the appeal court of Alberta. The decision will be whether the club is able to carry on its insurance scheme without obtaining a license under the Alberta insurance act. The 1500 Club is a club formed in Calgary in which each member on joining pays \$1.00 as an insurance fee. The first member who dies leaves insurance to the total of all the fees paid in. Each of the surviving members on his death pays in another dollar, and so on. Similar clubs exist in other cities.

The Ottawa parliament will assemble on December 10th.

Elopements are not all ended yet. A fellow named Jenkins was seen heading prairiewards last night, accompanied by three ladies, not his own.

Some of the local parties who had an interest in the Home Bank deposits, received cheques yesterday covering another dividend on their claims.

The committee of the Crows' Nest Pass Musical Festival desire to thank the many who so liberally patronized the 1927 syllabus with advertisements, etc.

The ordinary weight of the human heart is nine and a half ounces, and in size the organ is equal to the closed fist of the person to whom it belongs.

Rev. Dr. Denoon has not been enjoying good health since moving to Nova Scotia and was recently granted several months' holiday by his congregation.

Mrs. Ada Appleby and her mother, Mrs. Louise Emerson, of Bassano, are being jointly charged with the murder of Mrs. Appleby's five-months-old daughter.

Miss Lamb, who for some time has been matron at the local hospital, has resigned and left for Calgary by this morning's train. She is succeeded here by Miss Dubar.

A local teacher asked a pupil for a sentence with the word "analyse." The small boy responded with: "My sister Anna says she never makes love, but oh how Analyse."

Miss Peggy Strachan and Miss Violet Leather, both of the Bellevue teaching staff, spent Thanksgiving at the home of Mr. and Mrs. Robert Strachan—Fernele Free Press.

Entering the employ of the George Walter Company in London, England, when ten years old, John Hughes has been with the firm for eighty-one years and is now general manager.

J. S. McEachern, of the Crystal Dairy, Lethbridge, was in town last night, and left this morning for Fernie and other points west, as far as Kaslo, renewing his old acquaintances during a brief holiday.

The marriage of Miss Mary, eldest daughter of Mr. and Mrs. Paul Rayco, to Mr. Fred Heals, both of Passburg, was solemnized at the United church manse here on Monday morning by the Rev. W. T. Young.

Dr. George David Stewart, of New York, is the president-elect of the American College of Surgeons for the ensuing year. Dr. Stewart is a Nova Scotian. The past year's president was also a Canadian, namely, Dr. W. W. Chipman, of Montreal. Dr. Frank H. Newburn, of Edmonton, has been elected a vice-president.

D. Sorrentino, accompanied by Mr. Lowe and two sons and a friend, of Cardston, were motor visitors here on Tuesday enroute to Fernie. They returned home today, having enjoyed their trip through this district thoroughly. Mr. Lowe, senior, stated that this was his first visit to The Pass since 1907 and he was agreeably surprised at the great changes that had taken place in that time, particularly at Frank, where a thriving town of upwards of 1100 population is now but a tiny village without an industry, save the C.P.R.

"It's so good of you, doctor, to have come this far to see my husband."

"Not at all, madam, not at all. I have a patient next door and thought I would kill two birds with one stone!"

William Bennett, manager of the Rock Creek Hereford Ranch, who some weeks ago sustained painful injuries through a kick from a cow, although out of hospital, is still far from being able to follow his duties on the ranch. Mr. Bennett was a visitor to town yesterday.

ADVERTISING IN THE LIFE OF TRADE

Speaking at the annual banquet of the American association of advertising agencies at Washington, recently, President Coolidge held it would not be remiss to describe advertising as "the life of trade, and as the foundation for much of the success of the American industrial system. The pre-eminence of American industry, which has constantly brought about a reduction of costs," the president asserts, "has come very largely through mass production. Mass production is only possible where there is mass demand. Mass demand has been created almost entirely through the development of advertising."

Rev. Father Cosman, motored to town from Vulcan on Monday, accompanied by two or three members of his William parish.

William John Evans left on Tuesday night's train for Medicine Hat, where he takes a position with the Metropolitan Life Assurance Co.

People who want the very best use Red Rose Orange Pekoe Tea

An Age of Opportunity

Occasionally young people of today are heard deploring what they are pleased to term the fact that in these times there are not the same opportunities available for amassing great wealth, or of making a big place for themselves in the world, as was the case fifty, seventy-five or one hundred years ago. They hold the view that conditions which make it possible for a Rockefeller, a Vanderbilt, an Astor in the United States, or a Mussey or Flinn in Eaton in Canada to lay the foundations of great businesses and accumulate fortunes for themselves and families no longer exist, and that they must perforce remain the servants and employees of others.

These are mere excuses to cover up their own deficiencies, lack of initiative and energy. Those who make such excuses are invariably of the type who are quite unwilling to endure the hardships and perform the long and arduous work which was inseparable from the early years of the men of a few generations ago who laid the foundation for the great successes of which these youthful pessimists of today are envious.

The truth is that in no previous era in the world's history were there as many and as promising opportunities for young men and women as are presented to them today. The trouble is that, too often, the youth of today want the pleasures and luxuries of success without being willing to first undergo the sacrifices and self-denials through which success can be won. They are impatient of the day of small things, of the slow but gradual building-up process. They demand the impossible, immediate success without effort and arduous labor.

For the earnest, painstaking worker, possessed of initiative and courage, the present is indeed an age of golden opportunities. Present day business fairly teems with examples of astonishing success achieved within the short space of a few years. Just to mention one such example. It is only twenty-five years since the now well known Gillette Safety Razor Co. was formed with the insignificant capital of thirty dollars. Today its paid-up capital stock has a market value of two hundred million dollars. The first razors sold in 1903 had grown to a total of 14,562,098 in 1925, while the sale of a mere 14 packets of blades in 1902 increased to 52,433,533 packets in 1925. The company has paid cash dividends aggregating \$34,497,591. "What a romance in business in this present century!"

The automobile within the same space of time has revolutionized our modes of living, has created scores of multi-millionaires and made Henry Ford the world's wealthiest individual. Within the last half dozen years the radio has come into practical use opening new fields of employment and advancement and wealth for hundreds and thousands of wide-awake enterprising men.

How can anyone think, much less declare, that the day of great opportunities is past and gone? Great as have been the discoveries and developments of the past, the present is even more prolific and promising; the opportunities are vastly greater. The youth of today is, let it be emphasized, living in a golden age of opportunity with possibilities open to him unsurpassed, undreamed of, of a couple of generations ago.

Not only so, but the world today is not so skeptical of new ideas and inventions, and the man with an innovation gets a hearing and a chance to demonstrate his plans, where in former years he had to battle against prejudice and an ultra-conservatism which found expression in open and bitter opposition.

Where not so long ago a young man without position or money had a long, bitter, uphill fight to obtain recognition, today he is given every chance to make good, and if he fails the fault lies largely with himself, or the impracticability of his ideas, and not in the reception accorded him by an eager and progressive world. He is not denied his opportunity to make good; the great difficulty is that so many do not see, or, seeing, fail to grasp the opportunity at their hand.

There are still undeveloped fields of endeavor awaiting ambitious youth just as great with promise as were the unknown spaces of the United States in the first half of the nineteenth century, or in Canada in the years when the Fathers of Confederation dreamed their practical dream of a Dominion stretching from the Atlantic to the Pacific and the pioneers first began the task of developing the prairies of the West.

Film of Naval Battle

According to The London Daily Express, Germany has offered to co-operate in the production of an official British film depicting the battle of Coronel and the Falkland Islands during the war. It is understood the offer will be accepted by the British admiralty.

Every child born on board a British ship at sea is registered in the parish of Steyney, and all baptisms performed at sea are entered in the registers of that parish, which date back to 1568.

Dealer—"A violin for your wife? One with a chin rest?"
Jenkins—"Yes, and make it a detachable chin rest, so she can use it when she's not playing the violin."

Children Cry for

Fletcher's CASTORIA

MOTHER'S Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Napoleon's Cane Sold

Was Carried by a Soldier After the Battle of Arcola
Napoleon's cane has been purchased by a Trieste antiquary for \$5,000.

The cane had been cut from a red wattle-berry tree by one of Napoleon's soldiers after the battle of Arcola. Into the hands of the artistic guardsman had skillfully cut the features of his general with several episodes of the recent battle. The finished product he then presented to Napoleon, who carried the cane, continuing while he remained at Arcola. When he departed he inadvertently left it in the house at which he had stopped, where it had since been carefully guarded.

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston, Ont., who went to McKays' Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a six bottle of Nerviline. Sold everywhere.

Huge Crowd at Fascist Funeral
Forty thousand persons followed the bier of the Fascist Porro who was killed by an anti-Fascist while addressing a crowd on the subject of the attempted assassination of Mussolini. The funeral was made the occasion of the greatest Fascist demonstration in the history of Fascism.

THE TIRED OUT WOMAN

Needs the Help of Dr. Williams' Pink Pills to Regain Strength

No mother should allow nervous weakness to get the upper hand of her; if she does worry will mar her work in the home, and torment her mind and body. The monotony of the average housewife's daily toil is enough to cause depression, but there are other causes, as every mother knows, that tend to weaken and make her nervous run-down. A change and rest might improve her health, but best of all for a tired woman is a course of Dr. Williams' Pink Pills. These pills make new blood, rich in iron and elements on which the body and nerves thrive.

The value of Dr. Williams' Pink Pills when the blood is weak and watery, and the system run-down is shown by the experience of Mrs. C. W. Jackson, R.R. 1, Gifford, Ont., who says: "Before beginning the use of Dr. Williams' Pink Pills I was completely run-down and could hardly walk across the floor. As the mother of young children, with the usual household duties to perform, my condition was one of seriousness. I had lost my appetite, and my nerves were tired and decided to try them. This was a happy decision as I had not been taking the pills very long before I began to feel better both in body and in mind. I continued the use of the pills for a couple of months and now feel like a new woman, able to perform all my household duties. I would not be without the pills in the house and I recommend them to all run-down people."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or will be sent by mail for 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Germans Install New System

Trains Now Equipped With Wireless Telegraphy for Passengers

As a result of six years of experiment a new German system of wireless telegraphy is now installed in the trains on the Hamburg-Berlin line. Passengers while travelling are able to call up subscribers at any of the exchanges, and can themselves be called up.

"The innovation is to be introduced on all the main sections of the government railways. Passengers will also be able to communicate from one train to another."

Students Discard Robes

No longer do the students in the prominent school of Egypt all wear the traditional black robes. After a small but significant civil war, they discarded the flowing robes for the modern dress. The minister of education favored the robes and threatened a lockout of students but the students entered class rooms by force, and the minister's order was discarded when it was found that the school.

Doctor: "Your wife's mind is disordered, sir, disordered."
Jonus: "Great Scott, I'll give me the disordered too! She's been giving me a piece of her every morning for 20 years."

Family Life On The Amazon

Returned Explorer Gives Many Interesting Facts About Natives

Dr. William McGovern, the explorer and anthropologist, who recently returned to London after spending a year on the Amazon searching for hitherto undiscovered tribes, came across natives who had only heard of whites men. Some were civilized tribes with culture, and had a political and religious organization of their own. Others were so wild and primitive that they had no words, could not even swim, dug up roots for their nourishment, and only showed themselves higher than the animals by their use of fire. Dr. McGovern says some of the natives he visited think nothing of living 200 or 300 in one huge room. The centre of the room is used as a sort of common drawing-room, and the various families live on "allotments" all round the family allotment being big enough to contain a central fire and the necessary number of hammocks to sleep in. The staple food of the natives is the manioc—a sort of poisonous potato from which the poison is extracted by a complicated process of evaporation.

Belgian King Uses Motorcycle

Has Just Bought Seventh Machine Which is Almost Noiseless

King Albert of Belgium, the monarch who drives his own motor cycle, has bought his seventh machine of this type. The ruler's latest mount, made here, was displayed at the Olympia motor cycle show and attracted a great deal of attention. It is of unusual design, and when making high speed it is almost noiseless, due to an improved type of engine.

The King, who is also fond of aviation, often makes 200 miles a day, unaccompanied, when out on a motor cycle trip.

Visiting London Cathedral

William Skinner, head verger of St. Paul's Cathedral, who has been on the job fifty years showing sight-seers about, estimates he has answered more than 500,000 questions, one-fifth of which were asked by Americans. Mr. Skinner is better known to visitors than to Londoners, as comparatively few in the city ever visit the Cathedral for sight-seeing purposes.

A Texas motorist wrecked his automobile when he collided with a circus parade. That's what he got of driving to beat the band.

Advice For Young Mothers

"The Shaw Studio"
Hamilton, Ont.—"Before the arrival of my little boy my health was very poor, my back hurt and my nerves were so upset I could not sleep. I grew very weak and miserable and suffered from morning sickness. Finally I saw Dr. Pierce's Favorite Prescription in the drug store where I trade, so I decided to try it, and it did me a world of good. It relieved me of all my distress in a few days, built me up in strength and my nerves did not give me any more trouble. I got along fine the remainder of the time and I had a very strong healthy baby. In addition to keeping a woman healthy and strong it relieves her of a certain mental strain, from which most women suffer during motherhood."—Mrs. Joseph Curtis, 147 Bay St., North (Picture above).

Write Dr. Pierce, Pres. Invalids' Hotel, Buffalo, N. Y., for free advice.

Empire Leaves Members Free

Reason, British Commonwealth Gets Along Without Any Friction

The paradox of the British Commonwealth is that it can only cohere by being incoherent. It will hang together while its members are free. To attempt to tie them to each other by legal bonds would dissolve the whole structure.

We live together as a system of free peoples, sprung from one root, speaking one language, recognizing one sovereignty, but at liberty to go our separate ways if we choose.

Within the limits of that necessity there is abundant room for common effort and mutual helpfulness. We can meet and discuss, as members of one family. We can clear the channels of trade and improve the imperial lines of communication.

Above all, we can keep the air sweet and clean, the temperature warm, the atmosphere friendly. If the spirit is right, we need not fear that anything will go wrong with the works.—From John Bull, London.

New Discovery Kills Catarrh Germ Gives Quick Relief

Nasal catarrh, clogged nostrils, sneezing, itching, burning, itching, no matter how long it has lasted, can be cured instantly by the amazing power of Geene's Woodcock Balm. It is a powerful, but gentle, home treatment, positively harmless to the most delicate tissues, and gives relief in a few minutes. Your throat and nasal passages are freed from all catarrh, and you are free from all nasal trouble and discharge. To prove that this is absolutely true, we will introduce the treatment to thousands of Geene's Woodcock Balm. A strict guarantee of swift and full relief, or money back. No matter how many treatments you have used without success, or how long you have suffered from catarrh, don't miss this opportunity to try Geene's Woodcock Balm without slightest risk of cost unless pleased with results. A box will last for weeks.

Films Earth From Parachute

Aviator Drops From Airplane With Automatic Camera Strapped to Chest

The filming of the landscape as it looks to an aviator descending by parachute from an airplane at high altitude was carried out by James Clark, star-parachute jumper at the Naval Air Station at Anacostia, D.C. Clark made the descent of several thousand feet with an automatic cinematograph camera strapped to his chest. The first hundred feet of the jump consisted of a series of irregular somersaults, but the latter part of it was regulated to be less rapid and more even.

New Shakespeare Theatre

Will Ask Americans to Help Provide Funds for New Edifice
Archibald Flower, chairman of the board of governors of the Shakespeare Memorial Theatre at Stratford-on-Avon, Eng., called for New York to ascertain whether the people of the United States are inclined to provide money to aid in building a new Shakespeare Theatre in Stratford-on-Avon, to replace the one destroyed by fire some time ago. Of the \$500,000 required, the English people have only spent \$200,000 including the insurance on the old building.

Plan Memorial Forest

A memorial forest of 10,000 white pine seedlings is being planted in a New York State highway honoring Gene Stratton-Porter. This is the second such memorial in New York, the first having been planted in honor of Clara Barton, founder of the Red Cross.

Was Lincoln's Physician

Dr. Joshua H. Hayes, personal physician to Abraham Lincoln, died here, at the age of 95. He had wanted to live to be 100.

Liverpool and Manchester, England, are to be connected by a modern automobile road which will cost nearly \$15,000,000 and give employment to 2,000 men.

Dogs have a wholesome fear of fire. A delivery man recently saved himself from attack by two vicious dogs by tossing sulphur matches at them as they lunged at him.

Those who want to invest in a gold concern should make sure which way it is going.

MAGIC BAKING POWDER

Won Riches Too Late

Prospector Dies Just When He Began To Enjoy Fortune

A man who labored nearly a lifetime in a vain search for gold, and who finally happened upon a lode of fabulous wealth, was stricken by death just as he began to enjoy his newly won riches by instinct.

Charles "Scarlet" Brown, who discovered the lost lode of the famous old Third Beach mine, near Nome, Alaska, died on the steamer Victoria when the vessel, returning to Seattle, was three days from port.

Most of Brown's 63 years were spent in the Yukon. He endured all the hardships of the Northland in prospecting throughout the gold country.

Is Successful Detective

Woman in London Store Spots Shop-Lifter by Instinct

Seven hundred and seventy-eight women shoplifters have been caught in the last five years by Miss Gertrude Hunter, a detective employed in one of London's largest department stores. "I detect shop thieves by instinct," Miss Hunter said. "Professional thieves always expel. Sixty-seven yards of ribbon were found in the bag on one thief I caught. Eighteen silk dresses were packed in another. I know whether a woman intends to steal the instant I put eyes on her."

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Robert Kernighan Dies

Robert Kirkland Kernighan, the Khan, author and poet, is dead at his home in Rockton, Ont., after an illness of several months in his 72nd year.

Even those who think twice before they speak are apt to have another thought coming after they have spoken.

Too many men try to build a skyscraper on a one-storey foundation.

Cold Relieved or Money Back

Everywhere men, women and children are finding instant relief from Coughs and Colds at all times by taking BUCKLEY'S Mixture. Everywhere druggists are selling "Buckley's" under positive guarantee. The first dose proves how effective it is. There are no other colds like it. (Bottle label) Never be without this proven remedy.

W. E. Buckley, Limited, 100, Market Street, Toronto.

A box will last for weeks.

CHANGES MADE IN PERSONNEL OF CUSTOMS PROBE

Ottawa.—Sir Francis Lemieux has tendered his resignation as chairman of the royal commission investigating the administration of the department of customs and excise. He is to be replaced as chairman by Chief Justice Brown of Saskatchewan, senior member of the commission. Judge Ernest Roy of Quebec, has been appointed to be a member of the commission. These are the official features of a statement issued by Hon. J. A. Robb, acting prime minister, at the conclusion of a meeting of the cabinet. The statement announced the opening of the "Shoemaker" hearings at Ottawa on Wednesday, November 17. The full statement follows:

"It is expected that the customs inquiry commission will open its sittings in Ottawa, Wednesday, November 17.

"Honorable Sir Francis Lemieux, chief justice of the Superior Court of the province of Quebec, has tendered his resignation as chairman of the commission, on account of the great pressure of his judicial duties and also the fatigue involved for a man of his advanced years in the long journey and arduous work of the commission.

"In spite of the Government's efforts to retain him, Sir Francis adhered to his first decision. The Government has requested Chief Justice Brown of Saskatchewan, senior member of the commission, to become chairman. Sir Francis Lemieux was asked to name a successor as member of the customs inquiry commission and he has suggested the name of Judge Ernest Roy of Quebec. The City, which he has appointed today."

"After a few days at Ottawa, where it is expected to open November 17, the commission will travel to Vancouver and work back from the coast city, probably reaching Winnipeg by Christmas.

Discovers Deposit Of

Semi-Precious Gems

Find Near Winnipeg May Be Commercially Valuable

Winnipeg.—Deryl, a semi-precious gem, when cut, from \$5 to \$20 a carat, has been found in the pegmatites of the Bird River only 100 miles from Winnipeg.

Two claims, comprising 104 acres, have been staked by the discoverer, Kenneth Miller, Winnipeg, who reports 25 to 30 outcrops over a length of 2,000 feet. The width of the area in which the crystals occur is about 1,000 feet, and within this there are often lenses widening to 100 feet in which numerous fracture crystals can be seen even on the surface.

Will Visit Canada

London.—When the Imperial Conference closes, Canada will have an opportunity of seeing some of the delegates to the conference from the Antipodes. Premier J. G. Coates of New Zealand, plans to return home via Canada, as do some of the Australians, although it is doubtful if Premier Bruce personally will be able to visit Canada.

Reduce French Army

Paris.—Reduction of the total number of men under arms in France from 650,000 to 400,000 is called for in three bills which will be introduced in the Chamber of Deputies on the opening of Parliament. The measures also call for a reduction in the period of compulsory military service from 15 to 12 months.

Canada's Imperial Problem

Montreal.—Canada's imperial problem would be largely solved by the appointment of a political representative of the government in London, England, in the opinion of Prof. P. E. Corbett, formerly in the legal service of the League of Nations, who is now a lecturer in History and International Law at McGill University.

Left Books to Library

New York.—Harry Houdini, the magician, left his huge collection of books on magic, spiritualism, witchcraft and demonology, said to be worth \$50,000, to the Library of Congress is the belief of Leo Rullman, his lawyer, who drew up Houdini's will two years ago.

England's First Woman Sheriff

Southampton, Eng.—said to be the first woman ever to be appointed sheriff in England has been chosen here. She is Mrs. Lucia Welch. The new appointee will be forced to attend any execution which may occur during her tenure of office.

More Mennonite Settlers For Canada

Thousands Coming From Southern Russia Says Bishop Towes

Winnipeg.—Canada is being "sown" more than ever as a land of opportunity by the Mennonites, and before the end of the present year nearly 7,000 new settlers from Southern Russia will have made their homes in the Dominion, according to Bishop Towes, president of the Mennonite Colonization Board.

To date 3,500 Mennonites have settled in Canada and are well established and happy in their adopted country, Bishop Towes said. The movement of Mennonite settlers to Canada in 1917 will even surpass that of the present year, he added, although definite arrangements have not yet been made. Those who come late this year will suffer no inconvenience in the matter of getting settled. They will spend the winter with their countrymen in their settlements, and in the spring will get lands for themselves.

Bishop Towes intimated the Mennonites saw no attraction in Mexico now.

New Polar Expedition

Dr. Nansen Contemplates Voyage of Discovery by Airplane

Berlin.—Plans for a new polar expedition by airship on strictly scientific lines were set forth by Dr. Fridtjof Nansen, president of the International Society for the Exploration of Arctic Regions, at the opening of the international congress of that body today.

The route contemplates flights, with numerous stops, from Nome, Alaska, by way of the North Pole, to Umanak, Russia, or in the opposite direction. The airship will be manned by a crew of 50, the men to work in three shifts.

Dr. Nansen declares that the flights of Lyril and Amundsen over the North Pole were great pioneer deeds, but, from the viewpoint of Arctic exploration, merely preliminary to detailed scientific investigations, necessitating numerous landings, each lasting for hours.

Appointment Is Confirmed

Hon. Vincent Massey Is Officially Appointed Member to Washington

Ottawa.—Hon. Vincent Massey was appointed Canadian minister to Washington by an order-in-council passed by the cabinet. The announcement was made by Hon. J. A. Robb, acting Prime Minister, to a group of newspapermen. Mr. Massey is in England at the present time with Premier King attending the Imperial Conference in an unofficial capacity.

Leaving Earthquake Area

Sufferers Looking for Safer Place to Relocate Homes

Leningrad, Armenia.—Sufferers of the recent earthquake, despairing of their ability to rebuild their homes, have left for more promising parts of the Caucasus. Earth shocks of moderate intensity have continued for a week past. The authorities fear that if they persist the city shortly will be entirely deserted. With the advent of cold weather, the people are suffering bitterly, having lost everything they possessed.

Prince George to Come to Canada

Ottawa.—Prince George, fourth son of His Majesty the King, is expected in Ottawa on December 4, it was learned here. While in the capital His Royal Highness will be a guest at Government House. Prince George has been serving as a sub-lieutenant in the Royal Navy in Chinese waters. Arrangements are being made for the Prince to cross Canada in a private car.

To Strengthen Act

Winnipeg.—Corrective legislation embodying retroactive provisions to bolster up the Manitoba Rural Credit Act is under consideration by the provincial government. This move is being taken as the result of a judgment in Court of Appeal here against the Rural Credits Society.

Military Training Compulsory

Moscow.—Military training for all university students, both men and women, has been ordered by the commissariat of war. All students will be required to take 150 hours of instruction in military science during their regular four-year course.

May Visit Canada Next Year

London.—Although it has not yet been officially decided, it is understood His Royal Highness, the Prince of Wales, probably will visit Canada for the Diamond Jubilee celebration next year.

Canada's Death Rate Falling

People Living Longer Because Statistical Information Is Available

Ottawa.—Canada is fighting disease with figures, Experts say they are winning, that the death rate among infants and from cancer and tuberculosis is being gradually reduced. The Dominion now has a uniform system of vital statistics.

Until quite recently each province had a different system. New Brunswick had no system at all and no vital statistics were compiled except by the cities of St. John, Moncton and Fredericton. In Quebec the records were kept by the bishops, Roman Catholic and Protestant. This had been the method for 200 years and the civil authorities were loathe to meddle. Quebec has now joined the other provinces, and will have the best statistics in Canada.

People are living longer because statistical information is available, which shows the doctors precisely what they have to combat. Mr. Coates, Dominion statistician, is assisted in this department by E. S. MacPhail, superintendent of compilation, and W. R. Tracey, who recently made a trip by courtesy of the health sections of the League of Nations, to Geneva, Berlin, The Hague, Paris and British cities for the purpose of studying the collection of vital statistics in those centres.

PARLIAMENT TO ASSEMBLE ON DECEMBER NINTH

Ottawa.—Parliament will be opened on December 9, Hon. J. A. Robb, acting Prime Minister, announced at the conclusion of a meeting of the cabinet. After the formal opening, the Commons will proceed to the election of a speaker on Friday, December 10. There will be an adjournment until Monday, December 12.

"The Government hopes," said Mr. Robb, "that with the cooperation of the official opposition, the speech from the throne can be disposed of in one day. Then the estimates and supplementary estimates will be taken up just as they were left last year."

Mr. Robb expressed the hope that considerable business could be accomplished before the Christmas adjournment. After the adjournment, it is unlikely that Parliament will reassemble before the end of January.

Premier King and Hon. Ernest Lapointe sail from England on December 1 and will be present for the opening. As the part of the session which comes before Christmas will be largely taken up with the speech from the throne and the estimates, the actual details of the seasonal legislative program will not have to be dealt with by the cabinet while the Prime Minister and the Minister of Justice are absent. It is understood, however, that Mr. King and Mr. Lapointe have been in close touch with Ottawa by cable from day to day and are fully informed regarding the work of the cabinet.

From Government House comes the announcement that the state dinner and reception which traditionally accompanies the opening of Parliament ceremonies will be held on the evening of Friday, December 10. Owing to the early part of the season being of such short duration, Their Excellencies, the Governor-General and Vicecountess Willingdon will hold the Drawing Room early in January.

Canadian Course Lures Hagen

Langara Golf Course Club House. (Inset) Walter Hagen.

Walter Hagen, former British Open Golf Champion and winner for three years of the Professional Golf Association trophy, will soon be seen in action on the Canadian Pacific Railway Company's new course, Langara, situated at South Vancouver, Par for 36 holes. The course is being laid out by the Professional Golf Association, which is looking forward to having the par of the course which has particularly excited Hagen's interest is the abnormal size of the greens, which measure in aggregate approximately five and one half acres.

Walter Hagen, golfing editor of the Seattle Post-Intelligencer, is expected to be present at the test and intends besides to review fully the various golf courses of Vancouver and Victoria.

REUNION DINNER OF CANADIANS IS HELD IN LONDON

London.—Premier Mackenzie King attended the reunion dinner held by members of the Canadian expeditionary forces now resident in London. Owing to a previous engagement, however, the Prime Minister was unable to stay throughout the evening. The dinner, which is held annually on or about Armistice night, was presided over by Major-General Garnet Hughes. Among those attending were Viscount Byng of Vimy, Major-General J. H. McNeill, chief of the Canadian general staff, General Sir George Milne, chief of the Imperial General Staff, General Sir Ian Hamilton and Sir Hamar Greenwood.

Viscount Byng accepted a votive toast, saying: "I have spent five years of wonderful experience and happiness in the Dominion. The viscount said: 'I have always preached the adage doctrine and I preach it to you as one who has a passionate affection for you and your comrades. I have preached the word unity.'

"On the ninth of April, 1917, I saw Canada unity. I saw men from these five distinct battalions of British Columbia shaking hands with men from those five old battalions of Nova Scotia on top of Vimy Ridge, unconquered and unconquerable, telling each other that every man was as good as another. That ideal of our corps was a fine ideal worth cherishing."

Viscount Byng concluded with a plea for the setting aside of personal ambition and individualism and working for the same big purpose as you worked with men in those four years."

Choose Canadian Stock

California Rancher Buys Fifteen Head Owned by Prince of Wales

Calgary.—Fifteen head of shorthorn stock owned by the Prince of Wales at his ranch near High River, Alberta, have been purchased by Sheldon and Caruthers, owners of the Kirkwood farm, one of the show ranches of California. This announcement was made by Prof. W. L. Carlyle, manager of the Prince's ranch.

Before deciding on the cattle at the ranch of the Prince of Wales, buyers for the big California ranch visited many herds in the United States. The shipment consists of nine cows and heifers and six yearling bulls, one being a champion at Western fairs this summer.

Russian Children Eating Garbage

Providence, R.I.—More than 200,000 boys are living like scavenger dogs in the streets of Moscow, Russia, according to William W. Patterson, of Pennyan, N.Y., who returned to the U.S. today from Russia and the Near East. These youths eke out an existence by feeding from garbage cans and sleeping under yagons and in the streets, according to Mr. Patterson.

Fewer Deaths From Tuberculosis

Ottawa.—Canada has reduced its tuberculosis deaths since 1900 from 180 per 100,000 population to less than 80 per 100,000. This shows a reduction of more than 50 deaths per 100,000 people per year accomplished in the last 16 years, or a saving of one death per 100,000 people annually. In every 1,000 people or 9,352 lives per year.

Alberta Seed Survey

Will Ascertain Amount of Damage to Seed Crops by Wet Weather in Calgary

Calgary.—Survey of the entire province has been undertaken by the Dominion seed branch to ascertain the amount of damage the crop has suffered and the quantity of seed that would be available for sowing seedling. A preliminary report will be issued soon. Although there are potential rain men in Calgary who view the threatened shortage of seed seriously, it is generally admitted no definite measure of the quantities available can be made until the crops begin to move more freely. It is admitted that many of the tests for germination have given poor results, but it is hoped that these samples do not represent the average condition of the crop. The position in many districts is believed to be bad owing to crop damage by the rains.

May Settle In West

Countess Karolyi, Hungarian Noblewoman, Is Offered From U.S.

Montreal.—Countess Karolyi, wife of Hungary's war-time prime minister, who is now in Montreal, will not visit or even attempt to enter the United States, she told newspapermen here. The countess has dropped her suit now pending in the United States courts against the department of state, asking cause why a visa to enter was denied her. "Secretary of State Kellogg has said that he does not want me or mine. We shall never go where we are not wanted," said the countess.

Countess Karolyi left for Ottawa to interview Government authorities in connection with farms in Western Canada. It is believed that the Karolyis will purchase one of Canada's three prairie provinces.

Committee Struggling With Locarno Treaty

Problem Is Delicate and Little Progress Being Made

London.—The legal committee of the Imperial conference headed by Hon. Ernest Lapointe is still struggling with the Locarno treaty, trying to draft a memorandum on the subject for the Imperial conference. In such cases, but apparently has made little progress because of the delicacy of the problem and the falling among the delegates to agree upon the exact wording of the treaty. It can be taken for granted, however, that as a result of the delegates' deliberations, the British government will be far more circumspect in signing any future treaty like Locarno although they feel that the result of getting Germany into the League justifies the treaty entirely.

TO ENCOURAGE IMMIGRATION OF FARM WORKERS

London.—When the new agreement between the Canadian and British governments and the Atlantic transportation companies for the continuance of the £3 (\$14.55) fare for emigrants from Great Britain to Canada is finally concluded it is not likely that any radical extensions will be made in the classification of the emigrants coming under its provisions.

The existing agreement which will expire at the end of this year is limited roughly to bona fide intending farm workers and domestic servants. It is understood representations have been made that Canada should extend the scope of the agreement to include certain classes of industrial workers, but it is unlikely such a course will be followed.

The position taken by Canada's representative here, it is understood, is that an extension of the agreement to include industrial workers would probably result in the migration of such work as beyond the Dominion's power of absorption.

While the precise terms of the new agreement are unlikely to vary much from the existing agreement with regard to classifications, it is hoped that arrangements will be made under which the migration of intending farm workers will be encouraged.

The British Government has been training farms for intending farm workers emigrants. These farms take men of no agricultural experience and fit them for farm work. The original course of six months has been found too long and expensive for the handling of any considerable number of men and has been reduced to three months.

It is expected by this and other modifications in the training course that the migration of bona fide intending farm workers to Canada will be stimulated.

ADVANCE TO BE MADE IN OCEAN FREIGHT RATES

Montreal.—Ocean freight rate advances have been announced by the Canadian trans-Atlantic conference for the carriage of conference commodities to the continent from Canada. These rates take effect from December 1 next. Decision has also been taken to absorb the 15 per cent surcharge on the transportation of conference commodities to United Kingdom ports, which has been in effect since September 23 last, and to enforce a new series of rates, which will become effective on January 1. The rates to the continent and to the United Kingdom will run till the end of April.

The increase in freight rates will range from 15 per cent upwards, but it was made clear that such advances will be from the rates in force before September 23 and not from those now ruling, in the case of produce moving to the United Kingdom ports. Commodities affected by the new rates are only those included in the list dealt with under the jurisdiction of the conference. Cattle, flour and grain are not affected by the new rates, those coming under the purview of the British and French agreements.

Similar advances have been made by the North Atlantic Continent and North Atlantic United Kingdom conferences.

Reasons for the rate increases are said to be directly to the prolongation of the British coal strike, which has resulted in an increase of operating costs together with a decrease in available cargo carrying capacity.

May Eventually Send Envoy To Canada

But U.S. Will Depend on Consular Service for Present

Washington.—The United States Government not only has advised the Canadian Government through the British Embassy that Hon. Vincent Massey, the new Canadian representative to the United States, is acceptable, but there is a feeling of much satisfaction in official and congressional circles because Canada can be directly represented here.

It is expected that the arrangement will result in facilitating the handling of matters that directly concern the two governments.

What the United States is going to do about sending a representative to Ottawa is an open question. Not long ago President Coolidge let it be known that he regarded the American consular representation in Canada as meeting the situation. In order to send a minister or other diplomatic representative, isolation would be needed. Belief here is that while it is likely this Government will depend on its consular service for the present, Congress eventually will authorize the sending to Canada of a diplomatic representative of a rank to correspond with Mr. Massey's.

Rock Slide Causes Alarm

Prince Rupert, B.C.—The enormous rock crest of Glacier Mountain near Alice Arm in the Port of Canals district, recently became dislodged and crashed down the mountainside, making the people in the territory think an earthquake had occurred, according to word received here. The shock could be felt for miles around and caused debris to fall from shelves in a number of places.

Wants to Share With Britain

London.—It is reported here that Italy had demanded a share in the Russian oil monopoly sought by British finance in return for a loan to the Soviet government. Italy proposes to share in the loan and also in the reciprocal benefits obtained from Russia, or else issue an additional loan and take the monopoly on Russian oil sales to the world trade outside the British empire.

Bernard Shaw Surprised

London.—"It is a great mystery to me," said George Bernard Shaw, when asked for an explanation, not long ago to him of the 1925 Nobel prize for literature.

"I suppose it is given me because I wrote nothing at all that year," he added with a smile.

He has not yet been officially advised of the prize.

Final Scene In Royal Wedding

Brussels.—Princess Astrid of Sweden and Crown Prince Axel of Sweden, a Roman Catholic ceremony in the Cathedral of St. Gudula Nov. 10 and left on their honeymoon for a destination which has been kept strictly secret.

MILTON
SILLS

One Year to Make

THE GIANT OF ALL
SCREEN DRAMAS

—in the flaming, roaring inferno, half-blinded, half-choked with cauldrons of white hot liquid metal cascading into a sea of death—he fought for life—not his—but hers!

Not

just because it took a whole year to make—not because 14 great players were chosen to support Milton Silles—not because the entire company went into one of the nation's greatest mills and there suffered hardship and privation to get this story for you. No—not just because it stands out as the most daring undertaking in cinema achievement today—

But

because beneath the heat and turmoil of its tremendous story—while the vapor rises and the white hot steel overflows you realize the most touching drama of love and courage ever written.

by MILTON SILLS

Love as Fine as Steel
Courage as Mighty as Steel
Drama as Fine as Steel
